

ConTruc™ CC-200

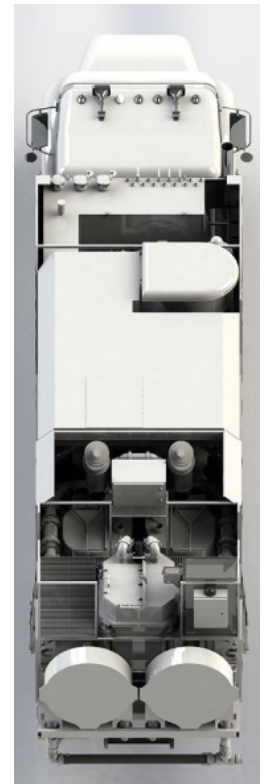

TRUCK MOUNTED MIXING UNIT

ConTruc™ INDUSTRIES has released their all new, time tested, 5th generation chassis mounted CC200 Mixing Unit designed and used for the production of neat cement cellular concrete with densities ranging from 20 pcf up to 115 pcf. All primary functions of the machine are controlled via a 24 VDC PLC with production parameters being monitored and adjusted through a 10" touchscreen.

EQUIPMENT DETAILS

- 200 CY/Hr. at 30 pcf Maximum Production
- Stainless Steel Hydraulic Tubing Throughout with Short Hose Whips to Motors and Pumps
- Variable Displacement Hydraulic Pumps
- Electronically Controlled Hydraulic System
- Low Pressure and High-Pressure Oil Filter System
- Air Hydraulic Oil Cooler System (Water Optional)
- Industrial Grade PLC (Built for Mobile/Outdoor Environment)
- 10" Touchscreen HMI
- Onboard Cement Silo (Maximum Working Load: 7.5 tons of cement)
- Dual Cement Slurry Mixing System
- Dual Concrete Pumps (Maximum Pump Pressure: 150 psi)
- Dual Cement Auger
- Rotary Screw Air Compressor (Maximum 150 psi)
- 125 Gallon Water Tank
- 125 Gallon Chemical Tank
- Two Coat/Two Part Industrial Epoxy Paint (Chemical Resistant)
